\*Preferred Date: The date for the appointment that is deemed medically necessary by the veteran’s physician or if no such determination has been made, the date a veteran prefers to be seen by a health care provider capable of furnishing the hospital care or medical services required by the veteran.

- 1. Total Appts Completed: Every completed appointment at that facility except surgery and procedures.
- 2. Appts completed in 30 Days or under: Number of appointments completed between 0-30 days of preferred date
- 3. Percent Appts completed in 30 Days or under: The percent of total appointments completed within 30 days
- 4. Appts completed in over 30 Days: Number of appointments scheduled greater than 30 days of the preferred date
- 5. Percent Appts completed in over 30 Days: The percent of total appointments scheduled beyond 30 days
- 6. Appts Completed Between 0 - 14 Days: Number of appointments completed between 0-14 days of the preferred date.
- 7. Appts Completed Between 15 - 30 Days: Number of appointments completed between 15-30 days of the preferred date.
- 8. Appts Completed Between 31 - 60 days: Number of appointments completed between 31-60 days of the preferred date.
- 9. Appts Completed Between 61 - 90 Days: Number of appointments completed between 61-90 days of the preferred date.
- 10. Appts Completed Between 91 - 120 Days: Number of appointments completed between 91-120 days of the preferred date.
- 11. Appts Completed Beyond 120 Days: Number of appointments completed in greater than 120 days of the preferred date.
- 12. PC Avg Wait Time in Days: Average waiting time for Primary Care appointments that were completed for the period.
- 13. SC Avg Wait Time in Days: Average waiting time for Specialty Care appointments that were completed for the period.
- 14. MH Avg Wait Time in Days: Average waiting time for Mental Health appointments that were completed for the period.

NOTE: In the event that a calculated wait time is negative due to the preferred appointment date being later than the actual appointment date, that wait time is set to a value of 0 since the veteran did not experience a wait.

NOTE: The zero means there are no patients or appointments in that category.

NOTE: The blank cells mean that there is no data – for example, if the average MH wait time is blank, that means that the station didn’t have any MH appointments pending from which to calculate an average.
